

## July 2018 Meet

The July 2018 Meet up of the Colonial Region started at the Dunlea Farm.

Vector file for the meet:

Colonial Region Members traveled to the Dunlea Farm along rural scenic roads and were greeted by Jim as they completed the long drive up the gravel driveway. Jim was out there demonstrating how things were done in the good old days:

Meanwhile Qin was busy preparing the lunch to be served in a super outdoor setting. There is nothing like parking by a great location for storage and restoration of Plymouth vehicles:

Cars also were parked in a location where there was a fantastic view:

The lunch and meeting also had a fantastic view:

Food was in the shade and close by:

The Region stayed cool in the shade of the same tree also while surrounded by all the field that Jim had cut:

A whole lot of touring was on the mind of the Region as they enjoyed the spot:

The day ended with the typical trip to the ice cream parlor where the Region put on the smiles after polishing off the ice cream with cows in the nearby dairy fields:

This was a nice touring day in a rural area with great weather, great food, and Region member stories covering time since our last meeting.
